Anyway, Went to the GP 3 weeks ago and sat and cried and he gave me 50mg of Sertraline for a month, telling me to return at the end of the course. He did warn me I was likely to feel worse before I felt better. But now it's been 3 weeks of taking it and the feeling worse bit is still going strong. I am so so so panicky all the time.

After 3-4 weeks of not drinking, your blood pressure will start to reduce. Reducing your blood pressure can be crucial as it can help to lessen the risk of health problems occurring in the future. As the calories in alcohol can cause you to gain weight, giving up alcohol can also help you to reduce your blood pressure as a result of the weight you can potentially lose.

Despite feeling generally much better on day six, for the next two weeks I was hit by waves of exhaustion and when I tried to exercise again, my muscles throbbed.

**Had coronavirus three weeks ago and I'm still feeling** —

Get plenty of protein. Eat three servings of protein a day to help spur new tissue for the baby-to-be. One serving of meat like skinless chicken or lean beef, for example, should be about three or four ounces ☺ roughly the size of a deck of cards. Other great protein sources include eggs, fish, dairy and legumes.
