~~Probability Pack B~~

# Online Library

## Basic Statistics

To answer this one we need to go to the basic definition of a median.

Median is the value which has roughly half the values before it and half the values after.

The number of values less than 25 are

$(36+54+69 = 159)$  and

the number of values

greater than 30 are

$(55+43+25+22+17=$

$162)$ . So the median
