Examines chivalry in the context of the Middle Ages

One of six novels to be published by the short-lived Danish Olympia Press (Girodias' legal troubles in the early '60s were horrendous, so he tried his hand in Copenhagen briefly before emigrating to America). My Mother Taught Me is a special Traveller's Companion title, and ranks as the most-requested book we've ever received. This is the tale of Lars, a Swedish boy, raised

in an all-male orphanage without ever seeing even pictures of women, adopted into a new household with enthusiastic siblings and an energetic foster-mother. The immediacy of the writing here is perhaps unparalleled in erotic fiction, with our Lars so earnestly describing every new sensation, while the plotline itself is rather clever. A must-read.

Transurethral resection (TUR) is today the 'gold standard' against which new methods must be compared in the treatment of BPH and other bladder malignancies. Covering the entire subject of transurethral resection, this fourth edition now includes chapters on the use of lasers as well as the medical-legal aspects associated with TUR. Blandy and Notley, with the help of John Reynard for this new edition, are recognized and respected authorities in the field, and have provided detailed descriptions of all the key processes involved in TUR, as well as the instruments and methods used and the basic skills that must be mastered. Filled with practical hints that support or refute popularly held views, Blandy, Notley and Reynard present rationales based on their own experiences, and describe every stage of each process in jargon-free text, illustrated with photographs and diagrams drawn by the senior author himself. A well-established work that presents valuable information in simple, straightforward terms, this is an essential text for all urologists, whether in training or in practice.
