Servant of God Nicholas Black Elk (1863—1950) is popularly celebrated for his fascinating spiritual life. How could one man, one deeply spiritual man, serve as both a traditional Oglala Lakota medicine man and a Roman Catholic catechist and mystic? How did these two spiritual and cultural identities enrich his prayer life? How did his commitment to God, understood through his Lakota and Catholic communities, shape his understanding of how to be in the world? To fully understand the depth of Black Elk's life-long spiritual quest requires a deep appreciation of his life story. He witnessed devastation on the battlefields of Little Bighorn and the Massacre at Wounded Knee, but also extravagance while performing for Queen Victoria as a member of "Buffalo Bill" Cody's Wild West Show. Widowed by his first wife, he remarried and raised eight children. Black Elk's spiritual visions granted him wisdom and healing insight beginning in his childhood, but he grew progressively physically blind in his adult years. These stories, and countless more, offer insight into this extraordinary man whose cause for canonization is now underway at the Vatican.

Since its publication in 1932, Black Elk Speaks has moved countless readers to appreciate the American Indian world that it described. John Neihardt's popular narrative addressed the youth and early adulthood of Black Elk, an Oglala Sioux religious elder. Michael F. Steltenkamp now provides the first full interpretive biography of Black Elk, distilling in one volume what is known of this American Indian wisdom keeper whose life has helped guide others. Nicholas Black Elk: Medicine Man, Missionary, Mystic shows that the holy-man was not the dispirited traditionalist commonly depicted in literature, but a religious thinker whose outlook was positive and whose spirituality was not limited solely to traditional Lakota precepts. Combining in-depth biography with its cultural context, the author depicts a more complex Black Elk than has previously been known: a world traveler who participated in the Battle of the Little Bighorn yet lived through the beginning of the atomic age. Steltenkamp draws on published and unpublished material to examine closely the last fifty years of Black Elk's life—the period often overlooked by those who write and think of him only as a nineteenth-century figure. In the process, the author details not just Black Elk's life but also the creation of his life story by earlier writers, and its influence on the Indian revitalization movement of the late twentieth century. Nicholas Black Elk explores how a holy-man's diverse life experiences led to his synthesis of Native and Christian religious practice. The first book to follow Black Elk's lifelong spiritual journey—from medicine man to missionary and mystic—Steltenkamp's work provides a much-needed corrective to previous interpretations of this special man's life story. This biography will lead general readers and researchers alike to rediscover both the man and the rich cultural tradition of his people.

hallucinating. That his medication was playing with his vision. Then the strange shadows began to walk around, moving freely. Jack chalked it up to a brain tumor. Some disease in his cerebral cortex. Schizophrenia, even. Something he could live with. Run, Jack, run. Now these creatures are not only haunting his nights, but his days. And they have a tendency to show themselves around people who are about to die. Seeking help he turns to a psychic who gives him a very special book. A book that he was destined to find. Jack learns that the only way he will ever know about who he was, is to face his worst fears, and die . . . again. In a series of incredible twists and turns, Jack finds out that the worlds of the living and of the dead are much closer than any of us can possibly imagine. And monsters . . . are real.

From the Civil War battlefields of England and Ireland to a mystery lost in the forests of North America, this is both a roaring adventure and a timely commentary on the dangers of religious extremism. Rhisiart Dafydd is a zealous Roundhead who embraces Oliver Cromwell's New Model Army and the violence it entails. But can his convictions survive the atrocities of the English Civil Wars and Parliament's campaign in Ireland? Called upon by his former commander to voyage to America to seek out a missing group of Welsh Puritans, he must first survive the journey, and then - if he can find the community - see whether they really have created the Kingdom of Heaven on Earth. An epic historical adventure set during one of the most turbulent periods in history, this gripping thriller also poses questions about violence, power, religious extremism and rejection of difference which are chillingly relevant to our world today.

Shares insights into how adversity can bring out the best in individuals and communities, drawing on multiple disciplines to consider such topics as the superiority of city states over nation states and the drawbacks of debt.

In-depth interviews with experienced black New York City policemen show that they face a unique set of problems directly related to race. It was found that blacks were often motivated to enter police work by the lack of alternative opportunities in other middle class professions. The black policeman sees the force as dominated by a white officialdom, while white offenders often deny that a non-uniformed black man can be a policeman. Since he is most frequently assigned to ghetto communities, the black policeman becomes the target for expressions of rage and frustration by inner city residents who perceive him as an agent of white repression. His chosen profession also affects the black policeman's social relations. He sometimes avoids the friends of his youth so that he will not learn of criminal behavior and they may avoid him for similar reasons. On and off-duty, the black policeman is drawn into an enclave of other black policemen and becomes a member of a minority group within a minority group. This book will provide additional insights for the police administrator who is directly affected by the problems faced by minority members of his organization.
