After forming a coalition of human resistance against the enemy invasion, Dalinar Kholin and his Knights Radiant have spent a year fighting a protracted, brutal war. Neither side has gained an advantage, and the threat of a betrayal by Dalinar ' s crafty ally Taravangian looms over every strategic move. Now, as new technological discoveries by Navani Kholin ' s scholars begin to change the face of the war, the enemy prepares a bold and dangerous operation. The arms race that follows will challenge the very core of the Radiant ideals, and potentially reveal the secrets of the ancient tower that was once the heart of their strength. In this new book, Ulrich Beck develops his now widely used concepts of second modernity, risk society and reflexive sociology into a radical new sociological analysis of the cosmopolitan implications of globalization. Beck draws extensively on empirical and theoretical analyses of such phenomena as migration, war and terror, as well as a range of literary and historical works, to weave a rich discursive web in which analytical, critical and methodological themes intertwine effortlessly. Contrasting a ' cosmopolitan vision ' or ' outlook ' sharpened by awareness of the transformative and transgressive impacts of globalization with the ' national outlook ' neurotically fixated on the familiar reference points of a world of nations-states-borders, sovereignty, exclusive identities-Beck shows how even opponents of globalization and cosmopolitanism are trapped by the logic of reflexive modernization into promoting the very processes they are opposing. A persistent theme running through the book is the attempt to recover an authentically European tradition of cosmopolitan openness to otherness and tolerance of difference. What Europe needs, Beck argues, is the courage to unite forms of life which have grown out of language, skin colour, nationality or religion with awareness that, in a radically insecure world, all are equal and everyone is different.

Author Jay Still had questions about information in the Bible for which no one seemed to have the answers. He began searching outside sources and offers a plethora of answers in The New Testament Historical Enrichment Book. Still expounds on what is found in the New Testaments and provides historical background to help understand more about the people, events, and history to answer a host of questions: What was Jesus' life like on earth? Outside of the New Testament writers, who else believed Jesus actually lived? Did Jesus have a family? What became of them? Paul proclaimed himself an apostle. Did others recognize him as an apostle? Who recognized his writings as authoritative? What became of the apostles? Did they disband and return to their former lives, or did they continue the work for which Jesus prepared them? The New Testament talks of King Herod before Jesus was born and well after Jesus died. How did he live so long? Why was Pilate, a governor, as powerful as Herod who was a king? Who wrote the New Testament? Why were their writings selected? What other writings were considered? Who did the early church see as the Antichrist? How did the early church see Paradise where Jesus went with the thief on the cross? What became of the nation of Israel? What became of the office of the High Priest? What became of the Temple? Drawing on writings of the early church fathers and historians closest to the time Jesus lived, The New Testament Historical Enrichment Book helps add to the knowledge base and provide a historical perspective of what is known about the New Testaments, its people, and its happenings.
