

## Answers **Geoworld Plate Tectonics Lab Answers**

This is likewise one of the factors by obtaining the soft documents of this **geoworld plate tectonics lab answers** by online. You might not require more get older to spend to go to the ebook initiation as well as search for them. In some cases, you likewise pull off not discover the revelation geoworld plate tectonics lab answers that you are looking for. It will entirely squander the time.

However below, bearing in mind you visit this web page, it will be consequently entirely easy to acquire as without difficulty as download guide geoworld plate tectonics lab answers

It will not admit many grow old as we

# File Type PDF Geoworld Plate Tectonics Lab

Answers before. You can pull off it even though piece of legislation something else at home and even in your workplace. so easy! So, are you question? Just exercise just what we present below as without difficulty as evaluation **geoworld plate tectonics lab answers** what you taking into account to read!

# File Type PDF Geoworld Plate Tectonics Lab

Give your answer in mm/y (millimeters per year). Show your equations and explain where each number came from.  
Useful Information: 1 cm (10 mm) on the map = 400 km on Geoworld  
 $1 \text{ mm/y} = 1 \text{ km/m.y.}$  (kilometers per million years)  
distance = rate x time, rate = distance time,  
time = distance rate  $1/2$  spreading rate =  
\_\_\_ mm/y 5.

Geoworld has a plate tectonics system just like ours on Earth, only Geoworld is flat instead of spherical. In answering the questions below, you may assume Magnetic Polarity Time Scale that the movement rates for plates (both relative and absolute) are constant 0 throughout the time between your past and future reconstructions (they were, however, quite different at one time - see Part 1, A.,
