Discover what bedtime looks like for the snowplows, dump trucks, giant cranes, and more that dot the pages of this irresistible construction story. Just like you and me, the vehicles in this story get tuckered out after a long day of hard work and need to quiet down and settle in for sweet dreams. Young readers will surely identify as these trucks ask for one more story while their parents sing them a goodnight song and send them off to bed. With a sweet rhyme scheme and an illustration style that ' s perfect for nighttime rituals, Where Do Diggers Sleep at Night? and its things-that-go companions—Where Do Steam Trains Sleep At Night?, Where Do Jet Planes Sleep At Night?, Where Do Speedboats Sleep at Night?, and Where Do Diggers Celebrate Christmas?—will leave vehicle-loving kids snuggled up and satisfied.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

Applied Psychology: Making Your Own World author: Warren Hilton The other aspect of the Sense-Perceptive Process has to do with the mental interpretation of environment. Both these aspects are distinctly practical. You should know something of the weaknesses and deficiencies of the sense-perceptive organs, because all your efforts at influencing other men are directed at their organs of sense. You should understand the relationship between your mind and your environment, since they are the two principal factors in your working life.
