It's rare to find a trilogy that gets better with each book but this is it, so this trilogy edition is a must buy. The story follows the story of prot, a man found wandering around claiming to be from another planet, as seen through the sessions with his psychiatrist. Through all the books one is kept guessing as to prot's real identity.

I read not only K-PAX itself, but "The Trilogy" containing K-PAX, K-PAX II (On a Beam of Light) and K-PAX III (The Worlds of prot). The edition I had featured "prot's report" (which he wrote from the notes he took during his first "visit"). I also watched the film.

Psychiatrist Gene Brewer doesn't have a diagnosis for the mysterious new patient who calls himself "prot" (rhymes with goat). But this strange and likeable man cannot be--as he claims--from the planet K-PAX. Or can he? Prot knows facts about space that are confounding the experts. He is soon revealing Dr. Brewer's own deepest pains and most sublime longings. And his tales of K-PAX have other patients competing to go along with him when he heads "home". Now the doctor is racing the clock to find prot's true identity before he losses a man whose "madness" might just save them all. . . . Published in a dozens countries with movie rights sold to the producer of Field of Dreams, K-PAX has touched the hearts and expanded the horizons of readers around the world. It promises to join Robert Heinlein's classic Stranger in a Strange Land as a moving, thought-provoking masterpiece of modern-day fiction.

A New visitor arrives from K-PAX. Fled is outspoken, belligerent, very promiscuous, and resembles more than anything else a large chimpanzee. When she returns she will be taking 100,000 people with her. Dr. B agrees to host the visitor at the Manhattan Psychiatric Institute hoping she will be able to do something for the hospitals difficult mental patients. Fled soon becomes pregnant, and the father could be anyone-a chimpanzee, a gorilla, or a human, possibly even one of the patient. As the departure date draws near, the reader will find himself gripped by the questions of who will be going wither and will the CIA be able to prevent her from kidnapping any American citizens.

He says he's from the planet K-Pax, a far superior planet. You'll want to believe him.

The final instalment of the K-Pax trilogy, and prot is back. Robert has returned to a catatonic state on the ward at the Manhattan Institute of Psychiatry. This visit to Earth, prot promises, will be his last. But prot claims he will take 100 beings with him, so everyone is clamoring to be chosen.

In this final book of the K-PAX series, Dr. Gene Brewer is approached by visitors from the planet Bullock, who demand that he deliver an ultimatum to the United Nations: Homo sapiens must end the killing of other humans as well as all other animal species living on Earth. Failure to meet this demand will result in the immediate extinction of the human race. Dr. B is amazed to discover that U.S. Government officials, including the President, have been expecting such visitors (who, though not corporeal, behave like a colony of ants), and are fully prepared to acquiesce to these demands. The problem is that the rest of the world must be convinced that the Bullocks are capable of, and willing to, eliminate human beings from the face of the Earth. Sometimes funny, always sympathetic, Dr. Brewer has a number of encounters with the Bullocks, in which he experiences undreamed of travels around the galaxy, and to his own past and beyond. For their part, the aliens willingly demonstrate their ability to remove Homo sapiens from this world. Will the clues found on the mysterious cone-shaped device be deciphered in time to save mankind from extinction? The surprise ending will captivate and reward K-PAX fans everywhere.

Five years to the day, almost to the second, after he disappeared form the Manhattan Psychiatric Institute, leaving his host body in a catatonic state, the being known as prot (rhymes with goat) has returned. Now, in sixteen more sessions with psychiatrist Gene Brewer, prot reveals that he has come back to escort a chosen few to his home planet, K-PAX. K-PAX is an idyllic planet free of the pain and suffering of earth. Prot has incredible insights into how to cure that suffering, and his radical ideas have made him a celebrity. Now, legions of people are longing to follow him home. But Dr. Brewer has heard it before. Five years ago, he discovered another person buried deep in prot's personality: Robert Porter of Montana. The mystery of Robert's illness and of prot's true origins lie deep within Robert's shattered psyche. Now Dr. Brewer must race against the clock to unlock the secrets of Robert's traumatic past and not only save his patient but maybe humanity.

The final chapter in the beloved chronicles of an angsty Brit begun in The Secret Diary of Adrian Mole Aged 13½ is “a tour de force by a comic genius” (Daily Mail). Am I turning into one of those middle-aged men who think the country has gone to the dogs and that there has been no decent music since Abba? Hard to believe! Adrian Mole is pushing forty, a beleaguered bookseller looking back through the wistful eyes of an unrecognized intellectual and, admittedly, pretty much of an Everyman. But he’s also looking forward, despite a few things: His five-year-old daughter is showing alarming Stalinist traits; his son is fighting the Taliban and he’s worried sick; his unfaithful wife is keeping a diary of her own and it’s all rather heartbreaking; frequent urination has made him fear trouble “down there;” and his mother is penning a misery memoir that is one gross slog of a lie (born an aristocrat in a Norfolk potato field, indeed!). Then one day he receives a phone call out of the blue from the great and only love his life: Pandora Braithwaite. “Do you think of me?” she asks. Only ever since he was 13½ . . . Adrian Mole’s epic and hilarious chronicle of angst over a quarter century has sold more than twenty million copies worldwide, and been adapted for television and staged as a musical—truly “a phenomenon” (The Washington Post). This final volume is “like rediscovering an old school friend on Facebook” (Time Out), and “if [it] isn’t the best book published this year, I’ll eat my bookshelf” (Daily Mail).

When a man who claims to be from outer space is brought into the Manhattan Institute, the mental ward seems to be just the place for him. However, this patient is unlike anyone psychiatrist Dr. Gene Brewer has met before. Clever, inscrutable and utterly charismatic, Robert Porter calls himself 'prot' and has no traceable background - but he claims that he is an inhabitant of the planet K-PAX, a perfect world without wars, government or religion, and where every being co-exists in harmony. It's not long before the other patients are hanging on prot's every word. And even Dr Brewer starts to find himself convinced... This omnibus edition contains all three of the K-PAX novels, plus a bonus story, prot's report, and is as witty, quirky and enlightening as we have come to expect of Brewer's wonderful characters.

The first book in the Beautifully Broken series. Twenty-four-year-old Pax Tate is not always a nice guy. He's a tattooed, rock-hard bad boy with a bad attitude to match. But he's got his reasons. His mother died when Pax was seven, leaving a hole in his heart filled with guilt. As Pax grew up, he tried to be the perfect golden boy but his dad couldn't overcome his grief long enough to notice. Pax couldn't keep up the impossible perfect façade, so he slipped far, far from it. Now, he uses drugs and women to cope with the ugly, black void in his heart. Until he meets sweet, beautiful Mila Hill. Mila is a carefree smile to his hardened frown, the beauty to his beast. When memories of his mother's death resurface, Mila is there to help him mend his broken heart . . . but only if he can stop being a jerk long enough to allow it. Pax says he's working on it. But is that enough to make her stay?
