We have had the M101A2 trailer for a while now and I thought it was a good time for an update. For a trailer that is over 20 years old, it has performed above expectations but there were a few minor issues. These mostly stem from previous owners adding things to the trailer making it harder to use some of the factory features. Problem 1: I could not get the dump bed to release. The spare tire ...

The M101A2 and M101A3 are different trailers. Not only in wheels and hubs and an extra leaf in the springs, but they have inertial hydraulic brakes and even the beds are dimensionally different. Be sure when you look at dimension specs, images and drawings you are looking at an M101/M101A1 and not the later trailers. One issue are the wheels.

The purpose of this manual is to provide the latest approved procedures for rigging Dual Row Airdrop System (DRAS) platforms. This manual is written for use by the parachute rigger. The procedures contained in this manual are typical and serve as the standard from which all DRAS platform rigging is derived. Chapters 1 and 2 contain specific limitations and general information about the rigging of DRAS
