Inquiry-based general science curriculum for the third grade featuring a text/workbook that students can write in.

The Second Edition of the Pearson English 7 Activity Book offers updated texts, activities, design and coverage of the Australian Curriculum: English. It caters for students of all abilities, including students with English as an Additional Language. The Pearson English Activity Books are designed to develop and consolidate students' knowledge and understanding of the English language and grammar. They integrate cumulative learning in the Language strand of the curriculum, as well as in the Literature and Literacy strands. Using the Activity Books, students develop higher order language and literacy skills. They are supported with a solid language foundation, clear explanations and scaffolded learning. Students are exposed to rich and varied literature sources and text types, including contemporary and classic texts, Australian Aboriginal storytelling and news articles. Each level of the Activity Books includes core units which offer clear Language explanations followed by scaffolded activities to use the language in context and build on grammar, vocabulary, spelling, reading and writing skills. At the back of the book, four revision units support students in preparing for summative assessment. Teachers will also find extension activities, tests, pedagogical support, Australian Curriculum correlation charts and more online for free.

The Pearson Science New South Wales 9 Student Book has been developed from the ground up with scientific literacy and accessibility at its core. Pearson Science New South Wales not only saves you time but is the only series that really engages your students. The engaging design, literacy focus, unambiguous features and clear, easy-to-understand language make the student book an invaluable resource for all learning types and abilities. From the publishers of the market leading Science Focus, Pearson Science New South Wales is written to exactly match the final NSW Syllabus for the Australian Curriculum. It will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but is the only series that really engages your students. The Pearson Science series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content. Extensive research and the development of a clear and fully accessible approach to content forms how the book is written.

The Pearson Science Second Edition Teacher Companion make lesson preparation and implementation easy by combining full Student Book pages with a wealth of teacher support, to help you meet the demands of the Australian Curriculum: Science as well as the 2017 Victorian Curriculum.

Discusses the training and education required to be a paleontologist, and describes some the important discoveries made in this field
