The design of the engine followed typical Perkins practices of

the time, using the "Aeroflow" indirect combustion system and

CAV in-line fuel pump. Expansion of the production facilities

at the Eastfield site were made to cater for the machining of

major components and assembly and test alongside the

existing P series engines and the new L4 tractor engine.

Regular servicing is the best way of ensuring your engine lasts as long as possible. Missing service intervals can lead to reduction in performance, often a drop of 20 percent in performance can happen before the operator notices. It can even lead to a vital part failing, which is costly to repair and results in expensive downtime. Read more
