Mixtures and Solutions: It Matters Spotlight on Physical ...

A solution is a mixture in which the particles of a different substance are evenly distributed, and are too small to see with the naked eye. A solution appears to be a single substance. The sugar and water make a solution. The sugar crystals dissolve in the water, changing the physical properties of the liquid.

Mixtures are a physical combination of two or more substances. Mixtures can be classified as heterogeneous or homogeneous, a type of heterogeneous mixture is a salad. A type of homogenous mixture is lemonade. In a mixture each substance keeps its properties, like if you put avocado in a salad and took it out it would still be avocado.
