The Singularity's Children Series: As the Third Millennium dawns, the world is slipping beyond human comprehension. Citizens are bewildered and angry; kept in line only by vast programs of computer-driven propaganda. Leaders are in Denial, clinging to the illusions of an idealised past, unable to move beyond corporate greed and political charade. But an emerging movement of techno-optimists can see post-scarcity utopias glittering on the horizon and have started building a collaborative future for all of Singularity's Children... Book One - Denial: Keith knows the 21st century is no place for a moral backbone. Not even a corporate expense account and the occasional synthetic liaison can air-gap him

from the blood on his hands. With neural prosthetics giving voices to our animal cousins, Niato, the grandson of a Sushi chain billionaire, is recruited into Eco-Terrorism by a radicalized dolphin, beginning a cross-species partnership that might change the world. Stella lives above a brothel on a nomadic, floating tuna farm. Her young life is brutal and precarious, she needs to find a tribe before she is consumed by the jaded world around her. Denial is high-tech adventure set in a world of soulless algorithms, psychotic corporations, and floating ghettos. It is the first book in an epic story arc which takes the reader from a post-internet, post-collapse world, deep into a wildly post-human future.

One thousand years in the future, humans no longer rule... In the early twenty-first century, humanity marveled at its greatest creation: Artificial Intelligence. They never

## Download Ebook The Singularity Box Set Books

foresaw the consequences of such a creation, though... Now, in a world where humans must meet specifications to continue living, a man named Caesar emerges. Different, both in thought and talent, Caesar somehow slipped through the genetic net meant to catch those like him. Eyes are falling on Caesar now, though, and he can no longer hide. The Artificial Intelligence wants him dead, but others want him to lead their revolution... Can one man stand against humanity ' s greatest creation? A don ' t-miss epic science fiction novel that pits one man fighting for the future of all people!

Humankind ' s vast intergalactic power struggle and future war to bring down an insidious evil alien empire reaches an explosive, page-turning climax in Ian Douglas ' s Singularity, the third book in his New York Times bestselling Star Carrier series. Blisteringly exciting military science

fiction in the vein of the hit TV series

“ Battlestar Galactica, ” Singularity pits determined space soldiers against a powerful race of creatures bent upon the total annihilation of a human race on the brink of technological transcendence. A notable descendant of such classic military sf novels as Joe Haldeman ’ s The Forever War and Starship Troopers by Robert Heinlein, Singularity will not disappoint author Douglas ’ s every-growing legion of fans as it conquers Jack Campbell, Rick Shelley, John Ringo, David Sherman and Dan Cragg loyalists as well.

What would you give to live forever? Elijah Brighton wants to become an ascender—a post-Singularity human/machine hybrid—after all, they ’ re smarter, more enlightened, more compassionate, and above all, achingly beautiful. But Eli is a legacy human, preserved and cherished for

his unaltered genetic code, just like the rainforest he paints. When a fugue state possesses him and creates great art, Eli miraculously lands a sponsor for the creative Olympics. If he could just master the fugue, he could take the gold and win the right to ascend, bringing everything he 's yearned for within reach... including his beautiful ascender patron. But once Eli arrives at the Games, he finds the ascenders are playing games of their own. Everything he knows about the ascenders and the legacies they keep starts to unravel... until he 's running for his life and wondering who he truly is. The Legacy Human is the first in a philosophical HopePunk sci-fi series that explores the intersection of mind, body, and soul in a post-Singularity world.

In a world transformed by the Eschaton, a sentient artificial intelligence, the colony of New Republic, founded by people who wanted no part of the technological revolution, is threatened by an information plague of advanced technology. Reprint.

Leon Tsarev is a high school student set on getting into a great college program, until his uncle, a member of the Russian mob, coerces him into developing a new computer virus for the mob ' s botnet - the slave army of computers they used to commit digital crimes. The evolutionary virus Leon creates, based on biological principles, is successful -- too successful. All the world ' s computers are infected. Everything from cars to payment systems and, of course, computers and smart phones stop functioning, and with them go essential functions including emergency services,

transportation, and the food supply. Billions may die. But evolution never stops. The virus continues to evolve, developing intelligence, communication, and finally an entire civilization. Some may be friendly to humans, but others are not. Leon and his companions must race against time and the military to find a way to either befriend or eliminate the virus race and restore the world's computer infrastructure. Praise for the Singularity Series: "Highly entertaining, gripping, thought inspiring. Don't start without the time to finish — it won't let you go." —Gifford Pinchot III, founder Bainbridge Graduate Institute, author THE INTELLIGENT ORGANIZATION "A tremendous book that every single person needs to read. In the vein of Daniel Suarez's Daemon and Freedom(TM), William shows that science fiction is becoming science fact." —Brad Feld, managing director Foundry Group, cofounder TechStars "A

fascinating look at how simple and benign advancements in technology could lead to the surprise arrival of the first AI. And like all good techno-thrillers, the reality of AI is less than ideal. ” —Jason Glaspey, SILICON FLORIST “ An alarming and jaw-dropping tale about how something as innocuous as email can subvert an entire organization. I found myself reading with a sense of awe, and read it way too late into the night. ” —Gene Kim, author of VISIBLE OPS

In the year 2035, robots, artificial intelligences, and neural implants have become commonplace. The Institute for Ethics keeps the peace, using social reputation to ensure that robots and humans don't harm society or each other. But a powerful AI named Adam has found a way around the restrictions. Catherine

Matthews, nineteen years old, has a unique gift: the ability to manipulate the net with her neural implant. Yanked out of her perfectly ordinary life, Catherine becomes the last firewall standing between Adam and his quest for world domination. PRAISE FOR THE LAST FIREWALL “ Awesome near-term science fiction. ” – Brad Feld, Foundry Group managing director “ An insightful and adrenaline-inducing tale of what humanity could become and the machines we could spawn. ” – Ben Huh, CEO of Cheezburger “ A fun read and tantalizing study of the future of technology: both inviting and alarming. ” – Harper Reed, former CTO of Obama for America, Threadless “A fascinating and prescient take on what the world will look like once computers become smarter than people. Highly recommended.” – Mat Ellis, Founder & CEO Cloudability “ A phenomenal ride through a post-scarcity

world where humans are caught between rogue AIs. If you like having your mind blown, read this book! ” – Gene Kim, author of The Phoenix Project: A Novel About IT, DevOps, and Helping Your Business Win

Singularity Hypotheses: A Scientific and Philosophical Assessment offers authoritative, jargon-free essays and critical commentaries on accelerating technological progress and the notion of technological singularity. It focuses on conjectures about the intelligence explosion, transhumanism, and whole brain emulation. Recent years have seen a plethora of forecasts about the profound, disruptive impact that is likely to result from further progress in these areas. Many commentators however doubt the scientific rigor of these forecasts, rejecting them as speculative and unfounded. We therefore invited prominent computer

## Download Ebook The Singularity Box Set Books

scientists, physicists, philosophers, biologists, economists and other thinkers to assess the singularity hypotheses. Their contributions go beyond speculation, providing deep insights into the main issues and a balanced picture of the debate.

Witches inhabit our world, organized in covens and hiding behind a shroud of secrecy—the Veil. Skye 's London coven sends her to Seattle 's Greenwood High to find the Singularity, an unusually gifted witch who may break the Veil and trigger a dangerous new era of witch-hunting. Things get complicated when Skye meets a charming new classmate, Drake. Skye 's job becomes even trickier when she clashes with Jane, an intimidating rival witch. Drake falls for the mysterious Skye, but odd accidents, potion mix-ups, and the occasional brush with death kind of get in the way of romance. Once he discovers Skye

# Download Ebook The Singularity Box Set Books

is a witch, he goes to war for her, even though his only weapons are a nice set of abs and a sharp sense of humor. Fighting off wicked Jane and the other dark forces hell-bent on seizing the Singularity's immense power, Skye and Drake will risk everything to save the covens. Going on a date has never been harder.
